

INTRODUCTION TO THE TRAIL:

Ecological Hiking Trail (PEP) is a circular trail, well marked with signs – recognizable by a symbol of tourist office Žetale: indigenous houseleek's flower silhouette. There are also description boards marking the cultural heritage. Amongst other, the trail includes two bigger ascents and it requires, without stops, three hours of moderate walking.

The trail starts at the bar Dobrinček, where you will find the guest book and all the information concerning the trail.

The Ecological Hiking Trail (Phodna ekološka pot – PEP) is located in Dobrina village, a part of Žetale commune. It lies along the main road Podlehnik – Rogatec; and is reachable within 20 minutes of drive from Ptuj; the distance is the same if you set off from Rogatec.
